## Biography

Raised in a family heavily involved in the Dutch jazz scene, Dulfer is the daughter of Hans Dulfer, a respected jazz tenor saxophonist. Her debut, *Saxuality*, released in 1990 for RCA Records, was very successful in Europe and the U.S. While it was by no means a straightahead jazz album, her funky alto sax stylings caught on with fans of contemporary jazz. Up to now she has released several albums synthesizing classic R&B, blues, pop and jazz in her own unique, creative ways.
